

DMOS GmbH is a design center for the development of integrated application-specific mixed-signal circuits for high-voltage applications used in the automotive industry as well as in building and industrial automation 4.0. DMOS GmbH has excellent development and working conditions in a modern office building right next to Dresden's main railway station. DMOS GmbH is a subsidiary of Elmos Semiconductor SE.

For the Analog / Mixed Signal Design Motor Control department we are looking for a

### Group Leader with design experience (m/f/d)

#### You fulfill the following requirements

- Degree in electrical engineering or comparable with focus on Analog / Mixed Signal IC Design
- 6-8 years of professional experience in development, microelectronics or similar with focus on Analog / Mixed Signal Design
- 3-4 years team leadership, experience in leading and managing employees in the field of research & development
- Consolidated experience in technical project management or project management would be desirable
- Use of standard IC design development tools and knowledge of semiconductor processes
- Previous experience in the automotive sector, functional safety and experience with technical and personnel are desirable
- Fluent technical English

#### You are interested in the following tasks

- Disciplinary management of an Analog / Mixed Signal IC development group incl. supervision of students
- Management, resource planning, recruitment and professional and methodological development of the team
- Investment planning, budget responsibility
- Responsibility for technical design for motor control or similar areas - for a team or as a coach for one or more technical managers
- Conducting annual employee appraisals including setting targets

#### Then you can expect

- A future-proof job in an innovative high-tech company that is well positioned in the global market and offers interesting development prospects
- Interesting and challenging tasks in an international environment
- Extensive induction and further training
- Competent colleagues who are on hand with help and advice
- Flexible working hours, possibility of mobile office, company pension scheme, bicycle leasing, company events and social offers
